

TESTIMONIAL - EDUCATION

In Navasota ISD, this technology has been great. It has really worked for us and we are very pleased with it. Our district is in good shape and has fared better than many of the districts around us. Protecting our students and teachers is our number one priority. This has been instrumental in helping us do that. I recommend using this technology highly because it does what it says...

Ronnie Gonzalez, Assistant Superintendent
Navasota Independent School District
