Commercial Air Purification

## Inactivates Indoor Pathogens

pureAir OMNI is the next generation in air purification designed to reduce odors caused by bacteria, mold, and mildew throughout the indoor environment.

# Benefits of pureAir OMNI

Continuous Purification

Reduces Odors and VOCs

Mounts to Save Space

Prolongs Food Shelf Life

## Commercial Air Purification System

The purification technology in OMNI can be used in food processing, food preparation, food and ice storage, and food transportation. By purifying food contact spaces, pureAir OMNI improves the quality of shelf-life of food products.

The odor reducing capability also makes pureAir OMNI a perfect choice for commercial refrigerators or any location in which odor reduction is needed. Unlike cover-up chemicals, pureAir OMNI breaks down the biological components thereby eliminating the odor. The result is a fresh smelling and clean environment.
